AWS Certified Machine Learning - Specialty

Notice of Exam Results

Candidate: Cristian Chavez	Exam Date: Nov 23, 2020
Candidate ID: AWS01727747	Registration Number: 383884716
Candidate Score: 856	Pass/Fail: PASS

The AWS Certified Machine Learning - Specialty (MLS-C01) has a scaled score between 100 and 1,000. The scaled score needed to pass the exam is 750.

Congratulations! You have successfully completed the AWS Certified Machine Learning - Specialty and you are now AWS Certified.

As a reminder, you are bound by the Candidate Code of Conduct you accepted when taking your exam, and you are expected to keep the contents of the examination secure. If you have any questions or require assistance, please contact us.

Congratulations again on your achievement and the ability to claim the associated benefits, such as access to the AWS Certified LinkedIn Community, recognition at AWS events, and showcasing your achievement with digital badges and the AWS Certified Logo.

If you have any questions about the AWS Certification program, please contact us for assistance.

Thank you.

AWS Certified Machine Learning - Specialty

Breakdown of Exam Results

The information in the table below details the composition of the AWS Certified Machine Learning - Specialty and your performance in each of the exam sections. The table includes the classifications of your performance at each **section level**.

This information is designed to provide general feedback concerning your examination performance. The examination is scored using a compensatory scoring model, which means you do not need to "pass" the individual sections. Please keep in mind that each section has a specific weighting on the examination, so some sections have more questions than others. This information is general in nature, highlighting your strengths and weaknesses.

Meets Competencies: Performance at this level demonstrates knowledge, skills, and abilities expected of a passing candidate.

Needs Improvement: Performance at this level does not demonstrate knowledge, skills, and abilities expected of a passing candidate.

	Score Performance		
Section	**% of Scored Items**	**Needs Improvement**	**Meets Competencies**
Domain 1: Data Engineering	20%		
Domain 2: Exploratory Data Analysis	24%		
Domain 3: Modeling	36%		
Domain 4: Machine Learning Implementation and Operations	20%		

Disclaimer: AWS Certification exams are designed to make pass/fail decisions based on the total exam score. Section level results are designed to provide direction on areas where a candidate may be weak. Candidates should exercise caution when interpreting the above section level score information as it is less reliable than the total exam score.
